

# RECYCLING

Televisions, along with computers and some other electronics (covered devices), can no longer be disposed of with municipal waste under the Covered Devices Recycling Act of 2010. Many of these

electronics contain mercury, lead, arsenic, chromium and other potentially hazardous substances. In addition to keeping these toxic substances from contaminating groundwater when landfilled, it is less expensive to recycle than to mine rare earth minerals used in the manufacturing.

Listed are several locations to drop off your television, and companies that will come to pick up your television for recycling. Some retailers offer a haul-away service with a purchase of a replacement tv.

**\*\*Please confirm the program, fees (there will be a fee), and any other\*\* conditions that may apply prior to dropping off your television.**
